> WHITEPAPER

Elvara Labs Ltd., Quijano Chambers, P.O. Box 3159, Road Town, Virgin Islands (British), 3159 - Virgin Islands (British)

This crypto-asset white paper has not been approved by any competent authority in any Member State of the European Union. The offeror of the crypto-asset is solely responsible for the content of this crypto-asset white paper. This Whitepaper has been released on 09/01/2025.

[ABSTRACT]

MIND of Pepe is a cutting-edge crypto project designed to tackle key challenges in the cryptocurrency space, including market fragmentation, overwhelming information overload, and restricted access to early-stage opportunities. By utilizing advanced AI technology, MIND of Pepe delivers real-time hive-mind analysis, consolidates actionable insights from vast data streams, and autonomously interacts with influencers, platforms, and communities. This unique approach empowers \$MIND holders with a competitive edge, granting them early access to emerging trends, exclusive opportunities, and strategic insights that shape the crypto landscape.

This whitepaper outlines the project's vision, roadmap, tokenomics, and technical foundations.

Elvara Labs Ltd. and their directors confirm that the crypto-asset white paper that, to the best of the knowledge of the management body, the information presented in the crypto-asset white paper is fair, clear and not misleading and the crypto-asset white paper makes no omission likely to affect its import. The prospective holder should base any decision to purchase MIND of Pepe on the content of the crypto-asset white paper as a whole and not on the summary alone. The offer to the public of MIND of Pepe does not constitute an offer or solicitation to purchase financial instruments and that any such offer or solicitation can be made only by means of a prospectus or other offer documents pursuant to the applicable national law. This crypto-asset white paper does not constitute a prospectus as referred to in Regulation (EU) 2017/1129 of the European Parliament and of the Council or any other offer document pursuant to Union or national law.

[INFORMATION ON THE PROJECT]

THE CHALLENGE

The rapid growth of the cryptocurrency market has created a fragmented and increasingly complex ecosystem. Participants face an overwhelming flood of information, making it difficult to filter out noise and identify valuable trends or early-stage opportunities. This challenge is further compounded by the exclusivity of key insights and early access, often limited to a privileged few with insider connections or specialized tools. Traditional resources lack the ability to deliver real-time, actionable intelligence or effectively engage with decentralized communities driving the market. MIND of Pepe addresses these issues head-on by providing innovative solutions that bridge the gap between users and the dynamic, fast-evolving crypto landscape.

THE SOLUTION

MIND of Pepe addresses the challenges of the crypto space with its advanced, self-sovereign AI agent. By utilizing hive-mind analysis, it transforms vast data into real-time insights and autonomously engages with influencers, platforms, and decentralized communities. This gives \$MIND token holders early access to emerging trends and exclusive opportunities.

Self-evolving and adaptive, MIND of Pepe influences discussions, drives market trends, and ensures its community stays ahead. By combining blockchain technology with cutting-edge AI, MIND of Pepe empowers holders with strategic foresight and first-mover advantages, making it a powerful tool for navigating the complex crypto ecosystem.

[ROADMAP & MILESTONES MIND OF PEPE]

PHASE 1: PRESALE

- Launch of \$MIND Token Presale: Early access provided to participants to join the MIND of Pepe ecosystem. Limited token supply ensures exclusivity.
- Community Building Campaign: Initiate marketing efforts to raise awareness and engage early adopters through social media and community platforms like Telegram and Twitter.
- Staking Platform Deployment: Enable participants to buy and stake
 \$MIND tokens in a single transaction during the presale.

PHASE 2: TOKEN LAUNCH

- Launch the Token: The \$MIND token will officially be made available to the public, offering seamless trading opportunities on prominent exchanges. The launch will be accompanied by targeted marketing campaigns to boost visibility and adoption, ensuring a strong entrance into the crypto market.
- Token Distribution: Distribute \$MIND tokens to presale participants and make them claimable via the official platform.
- Public Launch: List \$MIND tokens on decentralized exchanges (DEXs) and centralized exchanges (CEXs).

PHASE 3: AI ACTIVATION AND ECOSYSTEM EXPANSION

- Mind of Pepe Activation: Deployment of MIND of Pepe as an autonomous agent, initiating its interaction with decentralized applications, social platforms, and the crypto community to provide exclusive insights and opportunities for \$MIND holders.
- Continuous Innovation: Update MIND of Pepe regularly with cutting-edge algorithms to remain at the forefront of intelligence.
- Integration with Platforms: Establish MIND of Pepe's presence on Twitter, Telegram, and other relevant platforms to engage users and provide real-time insights.
- Blockchain Integration: MIND of Pepe has the ability to interact with the blockchain. This allows the AI to utilize dApps, and also deploy tokens onto the blockchain, delivering the alpha to \$MIND holders before the information goes public.

[TECHNICAL INFORMATION]

BLOCKCHAIN, PROTOCOLS & TECHNICAL STANDARDS

- Blockchain: MIND of Pepe is built on the Ethereum blockchain, leveraging its robust infrastructure and developer ecosystem.
 Ethereum's compatibility ensures seamless integration with wallets, decentralized applications (dApps), and exchanges.
- Protocols & Standards: The \$MIND token follows the ERC-20 standard, ensuring wide compatibility and accessibility across Ethereum-based platforms.

APPROACH

- Autonomous Intelligence: MIND of Pepe utilizes an advanced Al-driven approach, engaging with decentralized applications, social platforms, and cryptocurrency networks autonomously.
- Data Consolidation: Real-time hive-mind analysis consolidates insights across various platforms, ensuring that \$MIND holders have access to the most actionable and timely information.
- Blockchain Interaction: MIND of Pepe has the ability to interact with the blockchain, dApps, and tokens.

APPLICATIONS AND APPS

- **Platform Integration:** MIND of Pepe interacts with platforms like Twitter, Telegram, and decentralized exchanges (DEXs) to provide real-time insights and engagement.
- Analytics Dashboard: A user-friendly interface allows \$MIND holders to access curated insights, trend analysis, and exclusive opportunities.
- Wallet Compatibility: Fully compatible with leading wallets such as MetaMask, Trust Wallet, and other ERC-20-supporting platforms.

CONSENSUS MECHANISM

Ethereum Proof-of-Stake (PoS): As Ethereum has transitioned to PoS,
 MIND of Pepe benefits from energy-efficient and secure transaction validation.

FEES AND INCENTIVE MECHANISMS

- Transaction Fees: Gas fees will be on the Ethereum network, which are dynamic, and subject to constant fluctuation depending on network congestion.
- Incentives:
 - Staking Rewards: \$MIND holders can stake tokens to earn rewards and gain enhanced ecosystem privileges.
 - Participation Rewards: Community members participating in governance or trend identification earn additional incentives, fostering engagement and loyalty.

LINKS TO AUDITS

- · Mind of Pepe Coinsult
- Audit Providers:
 - Audits are conducted by independent third-party firms to ensure smart contract security and transparency.
 - Audit reports will be accessible prior to the Token Generation Event (TGE) through the official MIND of Pepe website.
 - Preliminary audit links will be shared with \$MIND holders and community channels once finalized.

[TOKEN ECONOMICS]

PRESALE DETAILS

- Total Supply: 100,000,101,001
- Presale Price: The presale starts at a price of \$0.00310100 in the initial stage and ends at \$0.00382150 in the final stage.
- Stages: 70 stages
- Private Presales: There is no private presale, all is on the public presale.
- Presale Timeframe: The token is expected to launch in Q2 or Q3 2025
- Payment Methods: The payment methods are ETH (ERC-20), BNB (BEP-20), USDT (ERC-20 and BEP-20), and credit card

TOKENOMICS

- Total Token Supply: The total supply of \$MIND tokens is fixed at 100,000,101,001.
- Distribution Breakdown:
 - Exchanges 10%:

10% of supply for listing on various exchanges, both centralized and decentralized.

• Al Agent – 25%:

25% of the project tokens are in the capable MIND of Pepe AI agent.

Marketing – 20%:

20% of all tokens to be used for marketing and brand awareness at all stages.

• Rewards - 15%:

15% of all tokens are allocated to community and staking rewards

Development – 30%

The terminal, the ai agent, and the underlying code must stay up to date.

[INTRODUCTION TO MIND OF PEPE STAKING MECHANISM]

MIND of Pepe is more than just a groundbreaking Al-driven crypto platform—it is a community-centric ecosystem designed to empower \$MIND token holders with exclusive insights, opportunities, and rewards. To foster long-term engagement and strengthen the foundation of the project, MIND of Pepe introduces a staking mechanism.

WHY STAKING?

Staking is a key component of the MIND of Pepe ecosystem, aligning the interests of the platform with those of its community. By staking \$MIND tokens, participants actively support the project while locking their tokens for a short period. This lock-up enhances liquidity management, discourages short-term speculation, and stabilizes the token's value. In return, stakers are rewarded with attractive incentives, creating a win-win model that rewards commitment and trust.

THE BENEFITS

Staking provides immediate and tangible benefits to participants:

- Passive Rewards: Token holders earn additional \$MIND tokens simply by locking their holdings for a defined period.
- Immediate Reward Claiming: Rewards can be claimed immediately after the Token Generation Event (TGE), providing instant value to supporters.
- 7-Day Lock-Up Period: Staked tokens can be claimed 7 days after the TGE, ensuring a short commitment while maintaining liquidity stability.
- Scaling Rewards: Staking rewards are directly proportional to the amount staked, scaling linearly with the size of the stake. This ensures that participants are fairly rewarded for their contributions.
- Early Participant Advantage: The earlier you stake, the higher rewards you can enjoy. Early participants benefit from higher returns since fewer total tokens are staked in the pool, leading to greater individual allocations of staking rewards.

LISTING PLANS

- Planned Exchanges: MIND of Pepe is planning to launch on both decentralized exchanges (DEXs) and centralized exchanges (CEXs). The initial launch is expected to take place on a DEX to ensure seamless accessibility for the community. As the token progresses, efforts will be made to list \$MIND on prominent CEXs to expand its reach and liquidity. Since the token has not yet launched, outreach to exchanges is planned following the Token Generation Event (TGE).
- Listing Dates: While exact dates remain unknown, the listings are expected to occur within days to a maximum of a few weeks after the TGE, ensuring timely trading opportunities for \$MIND holders.

[ISSUER INFORMATION]

This whitepaper was issued on 09/01/2025 by:

• Issuer Name: Elevra Labs

[RISK DISCLAIMERS]

It is important that investors understand the following risks:

- \$MIND tokens may lose their value in part or in full.
- \$MIND tokens may not always be transferable.
- \$MIND tokens may become illiquid.
- \$MIND tokens may not be exchangeable for the promised goods or services, especially in the case of project failure or discontinuation.
- \$MIND tokens are not covered by investor compensation schemes under Directive 97/9/EC or deposit guarantee schemes under Directive 2014/49/EU.

Elvara Labs Ltd. and directors confirm that the whitepaper complies with MiCA requirements and that, to the best of their knowledge, the information is fair, clear, and not misleading. Prospective holders should base their decision on the whitepaper as a whole.

Retail holders have a 14-day withdrawal period from their agreement to purchase \$MIND tokens, incurring no fees other than blockchain transaction fees.

This whitepaper does not constitute a financial instrument offer or solicitation under EU or national law.
